1.6 What is the structure of the Service Manual? We organize the Manual into related subject matter groupings (see Figure 1-1):

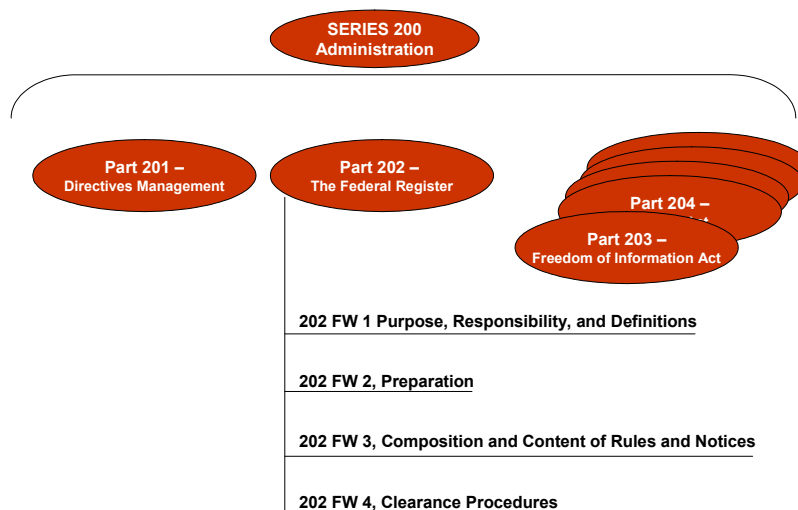

Figure 1-1: Structure of the Service Manual

A. Series. A series is a broad category. We assign each series a three digit number (for example, the 200 series is Administration). We subdivide series into “Parts.”

B. Parts. A Part is a more distinct category of similar chapters, for example, “The Federal Register” (Part 202) is a Part within the “Administration” series.

C. Chapters. Each chapter is a policy. For example, “Clearance Procedures” is Chapter 4 in Part 202. The citation for the chapter is 202 FW 4.
